

INTRODUCTORY FLIGHTS

An introductory flight is a great way to learn what it's like to fly in a small airplane, see if flight training is something you want to pursue, or to just experience the freedom of flight and take in some beautiful scenery. Here at NW Flight Service, we offer introductory flights in our 2017 Cirrus SR20 G6. The Cirrus is a modern, single-engine propeller-driven aircraft, and can carry 2-4 people depending on the size and weight of the pilot and passengers. The Cirrus is an exceptionally safe and beautiful airplane and has features like Garmin Perspective+ avionics, air conditioning, autopilot, seatbelt airbags, and of course the innovative Cirrus Airframe Parachute System (CAPS). To learn more about Cirrus, visit www.cirrusaircraft.com.

From start to finish, the introductory flight is about a 2-hour experience which includes 1 hour in the airplane. Before your flight, you will meet with an instructor and spend a few minutes talking about the goals of the flight. The instructor will tell you a little bit about the airplane and you will have the opportunity to do a brief pre-flight inspection with the instructor. Once inside the airplane, you will receive a safety briefing, including how to work the doors, seat belts, and basic flight controls. Throughout the duration of the flight, you will have the opportunity to fly the airplane! Based on your comfort level, your instructor will demonstrate how to perform basic maneuvers like turns, climbs, and descents. This flight can also count as your first hour of training towards your Private Pilot license! However, rest assured, if taking the controls is outside of your comfort zone, you can also just sit back, relax, and take some cool pictures. Above all else, the flight is meant to be a fun and memorable experience and safety is always our #1 priority. At the conclusion of the flight, you will have some time to debrief with your instructor and, if interested, get set up for additional flight training.

The Introductory Flight experience is a flat rate of \$535.00. Payment is required at the time of booking and intro flights are non-refundable. If the flight must be rescheduled for any reason (i.e. bad weather), the payment will be rolled over to the new reservation. Give us a call at 509-458-2359 to schedule your flight!
